

Reading the Bible on your computer, smartphone or tablet.

The online resource, [e-Sword](#), enables us to download entire translations of the Bible, including a chronological version that provides a day-by-day journey through the Bible. if you follow the link to eSword you will find versions for [Apple Mac](#), [iPad](#), and [iPhone](#). These versions have be purchased from the App store, but they are not particularly expensive - the one for the iPhone costs £1.99. The Versions for Windows and Android also exist. Download instructions are [here](#). The Windows app is free. There are in-app charges for specific translations and commentaries.

Using e-Sword makes it easy to compare translations, make notes, download a commentary, highlight verses or chapters that are important to you.
